Follow the guidance in the body of the previous message for OT worked in R6 ESF10. Lavone will send you a calculator for updates to PP25-Current that will assist you in capturing your hours & ensuring your appropriate split is applied.

Is there a separate response accounting line for OT? I don't think I am supposed to just charge to regular OT. Sorry for so many questions, but the direction from R6 made it sound like all my hours and OT should be charged to that one account but people plus would not let me charge more than the 8 hours for Friday.
